

Accessing Victorian Public Dental Services

General, emergency and denture care

A quick reference guide for professionals

This guide outlines access to Victorian public dental services as determined by [Department of Health](#) policy.

This guide covers **general, emergency, and denture care**. See page 2 for information on specialist care. The criteria apply to Victorian residents only, with cross-border arrangements in place.

Before people access public dental services, there are 3 aspects to consider:

- 1 Eligibility** Meets the criteria to use Victorian public dental services
- 2 Priority access** Some eligible people are not placed on a general waiting list, but are offered the next available appointment
- 3 Fee exemption** Some eligible people will not be charged out-of-pocket costs. Refer to information on page 2 for fee schedules.

ELIGIBLE GROUPS 0-17 YEARS	PRIORITY ACCESS Offered the next available appointment for general care or denture care	FEE-EXEMPT Note: Anyone receiving care from a dental or oral health student is fee-exempt
All Aboriginal and/or Torres Strait Islander peoples	✓	✓
All refugees and asylum seekers	✓	✓
All ages in youth justice custodial care	✓	✓

All 0-12 years	✓	✓ With concession card, no out-of-pocket costs ✗ Without concession card, out-of-pocket costs
13-17 years – must hold a healthcare card, or be a dependent of a concession card holder	✓	✓

Children aged 0-17 years who are eligible for the **Child Dental Benefits Schedule** can access general dental care at any public dental service and will receive the next available appointment. See page 2 for more details.

Types of services

Public dental services

Eligible Victorians can access free or subsidised dental care at the Royal Dental Hospital of Melbourne or Community dental agencies across Victoria. Services include general, emergency, denture, and specialist care.

Community dental agencies

Community dental agencies are located throughout Victoria and are typically part of a multi-disciplinary community health service that offers a wide range of care.

Private dental clinics

Privately owned clinics set their own fees, which vary by clinic and type of care.

Types of care

General care

General dental care includes things like oral examination, x-rays, oral health advice, scale and cleaning, extractions, fillings and fissure sealants.

Emergency care

A dental emergency could be swelling of the face, trauma to the face, bleeding from the mouth that will not stop, an ulcer or sore in the mouth that has not healed, severe mouth pain that prevents sleep, tooth fracture or an exposed tooth nerve.

Eligible Victorians can access emergency dental care at public dental services at any time. Non-eligible Victorians can also access emergency care if they meet specific clinical criteria.

Denture care

Denture care includes complete or partial upper and/or lower dentures.

Specialist care

Specialist care includes paediatric dentistry, special needs dentistry, oral medicine, oral and maxillofacial surgery, orthodontics, periodontics, endodontics and prosthodontics.

To access public dental specialist care, a general course of care *must* have been completed and a written referral provided by the treating dental practitioner.

* For students of government primary, secondary, and specialist schools only

Fee schedule

Fees are set by the Department of Health, but they may vary between community dental agencies. Contact your local community dental agency for details. Fees are updated annually.

Fees for *specialist* services depend on the treatment. They will not exceed \$378 for a course of care.

People facing financial hardship may be eligible for fee exemptions, as assessed by dental agency staff.

Below are the approximate fees for eligible groups who may have out-of-pocket costs. These groups are outlined in the quick reference guide on page 1.

Children 0-12 years	General care	\$38 flat fee per child for course of care to a maximum of \$152 per family
	Emergency care	free
Young people 13-17 years	General care	free if patient or parent/guardian holds a concession card
	Emergency care	free if patient or parent/guardian holds a concession card; \$266 if no concession card
Adults 18+ years	General care	\$31.50 fee per visit to a maximum of \$126 for a course of care
	Emergency care	\$31.50 flat fee with a concession card; \$266 if no concession card
	Denture care	\$76 per denture, capped at \$152 for full upper and lower dentures

Child Dental Benefits Schedule (CDBS)

The CDBS covers the cost of basic dental services for children aged 0–17 years. Children are eligible if their family receives Family Tax Benefit Part A or other relevant payments.

CDBS can be used at all public dental clinics and there are no out-of-pocket costs. Not all private dental clinics offer CDBS and those who do may also charge additional gap fees.

The CDBS covers check-ups, cleaning, fissure sealants, fillings, x-rays, extractions, and root canal
